

Dane County Regional Airport

Logo Usage

The following treatments represent variations of the Dane County Regional Airport logo. Color, black and a reversed to white files have been created. Pantone and 1 color versions have been created for use with special applications such as merchandise.

	Horizontal	Vertical
Primary Treatments		

The primary treatment consists of the full color logo with tagline and without and should be used for all marketing collateral when using 4 color digital or offset printing. Tagline versions should only be used when logo is 2" wide or larger for best legibility.

Secondary Treatments		
----------------------	---	---

The secondary treatment consists of the full color logo featuring reverse white type and icon. Reversed white type logos can be used when appearing on a contrasting dark background.

Special Treatments		
		
		

Special treatments for the logo have been created for additional use which include: black, one-color (PMS 316), and reverse white. Black and one-color logos can be used in black and white printing and one-color jobs. Black logos can be used for 1 color internal documents, forms or where color is limited due to cost constraints such as on banners, signage, or other promotional materials.
